

AUS Continues to Buy Distribution Rights for Ecomate

(Spray Foam Magazine April 2008)

Australian Urethane Systems (AUS) and Foam Supplies, Inc. (FSI) have strengthened their partnership. FSI's Ecomate blowing agent is now available through Australian Urethane Systems (AUS) in China, India, South Africa, and the MEAF regions in the international Distribution Network because of AUS's technical expertise and customer support capabilities. The new regions join the existing Ecomate network, which includes Purcom Quimica, LTDA of Brazil, and Linde/BOC limited of the United Kingdom, as well as AUS in Australia, New Zealand, and Asia Pacific region. For more information, contact Foam Supplies Inc., (800) 323-4875, www.foamsupplies.com
